

October Technical Data Intake Meeting

October 27, 2022
Gabrielle Torres

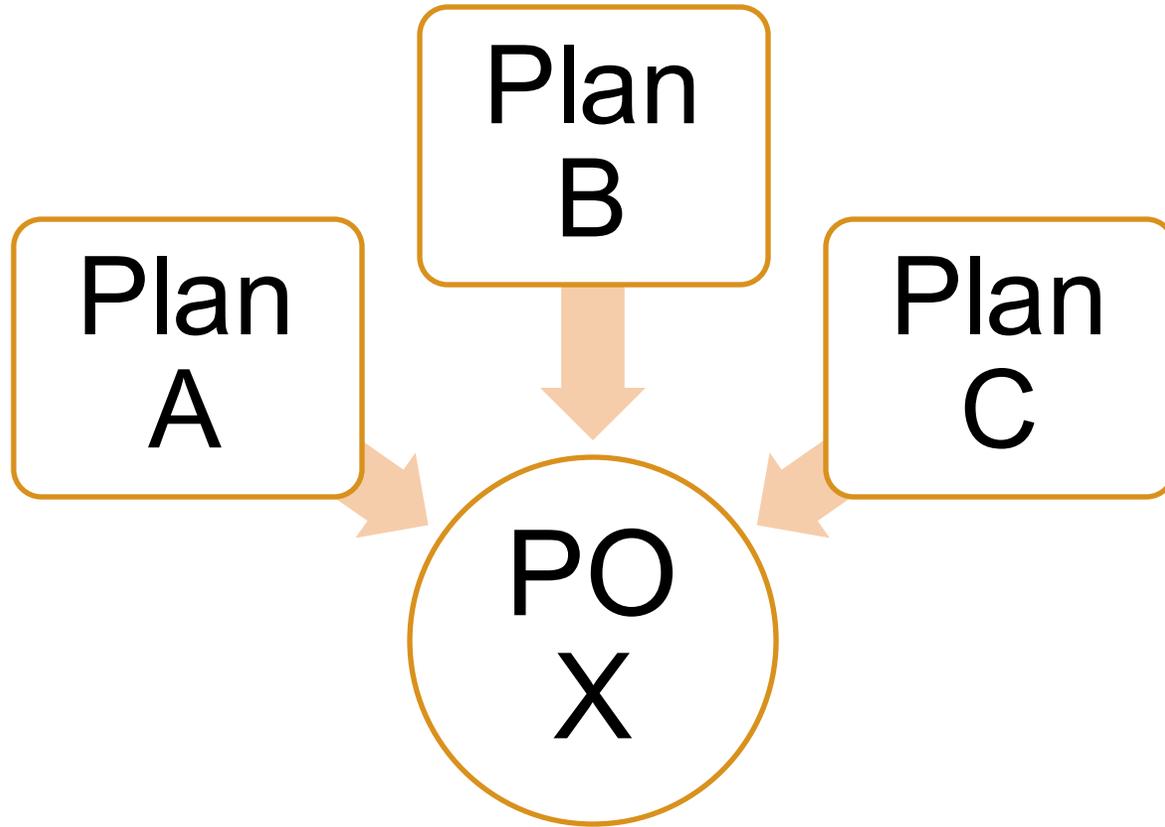

The Participation Confirmation process ensures that IHA has all the health plan and provider organization information needed for successful AMP program data collection, aggregation, and reporting.

AMP Master serves as roadmap for AMP data submission

Plan-PO contract agreement across AMP for Transunion and Onpoint data pipelines

- AMP data is aggregated at the PO level
- For correct aggregation, all contracted AMP plans must agree on all AMP's 200 participating POs
- Data Submission Roadmap
 - Transunion: prospective for MY22 submission
 - Onpoint: retrospective for MY22 member identifier file
